Al ejecutar la aplicación se identificó que la vista del login no se veía correctamente

---

Otro error que encontramos es que al dar click en el botón de iniciar de error nos salió lo siguiente:

---

Al revisar el código notamos que es porque el LoginController no contaba con una ruta que lleve a una defaultview en caso de no ser correctas las credenciales. Por lo tanto, para confirmar que ese fuera

Al ingresar con una de las credenciales de la DB, nos salio el siguiente error

# Whitelabel Error Page

This application has no explicit mapping for /error, so you are seeing this as a fallback.

Thu Nov 05 21:38:01 GMT-05:00 2026
There was an unexpected error (type=Internal Server Error, status=500).
